Fucina storica bresciana fondata da Faustino Pintossi nel 1949, Effepi è oggi un riferimento riconosciuto per quanto riguarda la produzione di rubinetteria di qualità.

Situata nel paese di Villa Carcina, alle porte delle valli bresciane famose per la produzione e lavorazione del metallo, Effepi ha sede negli edifici storici dell'ex Cotonificio Bernocchi, uno dei massimi esempi lombardi di architettura industriale realizzata nel XIX° secolo.

In costante equilibrio tra tradizione e contemporaneità, la famiglia Pintossi - oggi alla quarta generazione - punta a realizzare prodotti di qualità in grado di trasferire il valore culturale e le competenze del fare bene, espressioni tipiche del produrre bresciano.

Un modo di realizzare prodotti che, nel tempo, è divenuto sinonimo di ciò che nel mondo è riconosciuto come il miglior made in Italy.

A historic metalworking firm founded in Brescia in 1949 by Faustino Pintossi, today Effepi is an acknowledged landmark in the manufacture of high-quality taps and fittings.

Located in the town of Villa Carcina, gateway to the Brescia valleys renowned for metal production and processing, Effepi has its headquarters in the original offices of the former Bernocchi cotton mill, one of Lombardy's leading examples of 19th-century industrial architecture.

Constantly seeking to balance tradition and modernity, the Pintossi family - now in its fourth generation - focuses on creating high-quality products that convey the cultural value and expertise of accomplished manufacture, classic characteristics of Brescia's products.

A way of manufacturing goods which over time has become synonymous with the quality recognised all over the world as the very best of Made in Italy.
